

# ESD Unitec

## The low-cost solution for solid performance

If you are looking for a budget-priced, basic model for use in ESD areas, ESD Unitec is a straightforward yet solid option. It offers all the standard functions and can be easily adjusted by the user. ESD Unitec is ideal for workplace situations that involve standing up as well as sitting down. Unitec has a

generously proportioned seat and a high backrest. Comprehensive discharge capability is not a requirement for many areas. Therefore, ESD Unitec does not feature the conductive plastic components and steel components with conductive coating found on our other ESD models. Nevertheless, there is absolutely no compromise in terms of how the upholstery manages to direct electrostatic charges down to the conductive base.

## The characteristics of the bimos standard ESD protection system

**Conductive high-comfort upholstery** (choice of fabric or synthetic leather)

**Five volume conductive castors/glides**

Continuous **conductive connection** running from upholstery down to castors/glides

### Standard functions for first-time buyers

- Seat height adjustment
- Backrest height adjustment
- Contact backrest

# ESD Unitec

## Design and materials

All the ESD Unitec upholstery options have appropriate antistatic properties. ESD Unitec features a sturdy five-legged base frame with flat lines made from sectional steel tubing. The colour of the frame is black.

## Mechanisms and functions (for precise details, see pages 16-17)

## Accessories (for precise details, see page 141)

Ring-shaped armrest

Foot ring for Unitec
